Do you Offer **STEM Programming** or Opportunities?

Do You Need **MORE PEOPLE** to Know About These Opportunities?

The NeoSTEM Ecosystem, through its DreamSTEM initiative, is building a directory of STEM educational opportunities in our region and wants to include you and any programs or opportunities you have to offer learners and families in Northeast Ohio. The opportunities can focus on PreK to 12 or beyond.

This directory will be heavily promoted throughout the region and across the country and give you widespread exposure to students, families, funders and others.

Do you have a summer camp, a one-day STEM event or an overnight opportunity? Do you need to reach more students and families?

NeoSTEM, a collaboration of dozens of Northeast Ohio non-profits, museums, K-12, higher education, businesses and philanthropies, is seeking your information for **STEMMAP.ORG™**.

STEMMAP.ORG™ will become a public tool for families, educators, funders and others who want to understand what STEM opportunities and programs exist in our region.
